

AMENDMENTS TO THE SPECIFICATION

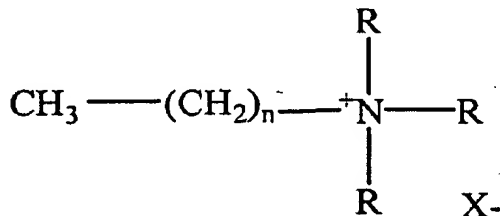

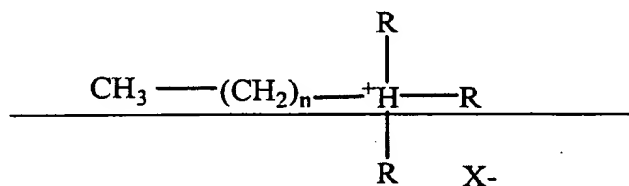

Please amend the specification as indicated by the marked up paragraphs on page 16,
line 10 to page 17, line 2:

[0052] Alkylpyridinium is represented by the structural formula (I):

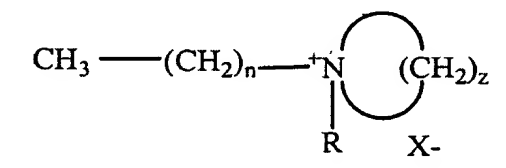

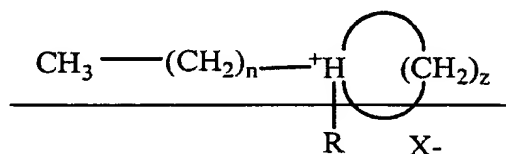

[0053] wherein n is 9-21; and X is a halide.

[0054] Tetra-alkylammonium is represented by the structural formula (II):

[0055] wherein n is 9-21; R is selected from the group consisting of CH₃ and C₂H₅; and X is a halide.

[0056] Alkylalicyclic ammonium salts are represented by the structural formula (III):

[0057] wherein n is 9-21; Z is 4-5; R is selected from the group consisting of CH₃ and C₂H₅; and X is a halide.
